

Join the students and instructors of Passaic County Community College
for an afternoon with

Robots in Industry

Thursday, December 7 at 1:30 PM
STEM MakerSpace (Room E210)

Things you will Learn:

-
- ✓ How Industrial Automation is used to improve material flow and eliminate parts handling
 - ✓ How automation is leveraged in Designing the Element of Human Error out of the process
 - ✓ How robots deliver sustainable and reproducible results
 - ✓ **Meet and talk with Industrial Engineer Mr. Chris Urbane of Volvo Group Truck Operations**
